

Dog Toxocara Canis IgM (T. canis IgM) ELISA Kit

Catalogue No.: abx050290

Dog Toxocara Canis IgM (T. canis IgM) ELISA Kit is an ELISA Kit for the in vitro quantitative measurement of Dog Toxocara Canis IgM concentrations in serum, plasma, cell culture supernatants and tissue homogenates.

Target:	Toxocara Canis IgM
Research Area:	Veterinary / Animal Health
Reactivity:	Dog
Tested Applications:	ELISA
Recommended dilutions:	Optimal dilutions/concentrations should be determined by the end user.
Storage:	Shipped at 4°C. Upon receipt, store the kit according to the storage instruction in the kit's manual.
Shelf Life:	The shelf life of this kit is at least 6 months.
Stability:	The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.
Standard Form:	Liquid
Detection Method:	Colorimetric
Assay Type:	Indirect
Assay Data:	Qualitative
Sample Type:	Serum and plasma.
Note:	<p>THIS PRODUCT IS FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES.</p> <p>Please note that our kits are optimised for detection of native samples, rather than recombinant proteins. We are unable to guarantee detection of recombinant proteins, as they may have different sequences or tertiary structures to the native protein.</p>
